THE PROBLEM

What's hiding in your tap?

● Chlorine

Alters taste, smell and long-term health

● Heavy metals

Rust & lead — invisible, cumulative damage

● Limescale

Silently destroys boilers & appliances

YOUR TAP WATER BEFORE FILTRATION

Unfiltered · Untreated · Unacceptable

THE HIDDEN THREAT

Limescale is silent. *Until it isn't.*

A BOILER HEAT EXCHANGER,
DESTROYED FROM THE INSIDE

- Builds up invisibly inside your pipes & boiler
- Reduces efficiency — your bills rise without warning
- A new boiler costs €2,000+. Limescale destroys it in years
- Damages your washing machine, dishwasher & kettle

THE SMARTEST PROTECTION YOU'LL EVER FIT

Your filter pays for itself.

HOW IT WORKS · DUAL-STAGE CARBON

Two stages. Zero compromise.

— STAGE 1

Sediment Filter

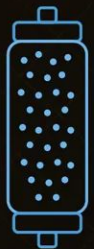

- Rust and iron particles
- Sand, silt, sediment
- All visible impurities

— STAGE 2

Carbon Filter

- Chlorine & chemicals
- Odour and bad taste
- Organic compounds

**99%****of chlorine removed**

THE BENEFITS

Pure water, on tap.

01

Drinkable straight from your tap

Stop paying for bottled water — your tap becomes the source.

02

Removes what carbon can't

Dissolved solids, metals & TDS, down to 0.0001 µm.

03

Healthy minerals restored

A dedicated mineral filter keeps water balanced & great-tasting.

04

Smart panel

Live TDS reading, and it tells you when each filter is due.

05

Tankless & efficient

Space-saving under-sink design, 600 GPD, 3:1 pure-to-waste ratio.

FULLY MANAGED SERVICE

We replace every filter on schedule. You do nothing.
